

THE ESSENCE OF FAITH SHARING

FAITH SHARING is not a theological discussion; no speeches, homilies, or dissertations are required
(information model)

FAITH SHARING is not an answer to anyone's problems: not a place to ventilate frustration
(therapeutic model)

FAITH SHARING is my experience of God in my personal history or journey of life
(mystery model)

FAITH SHARING is living in the messiness and vulnerability of life; sharing its joy, sorrows, hopes, and fears of the human journey and God's faithfulness in that journey

FAITH SHARING requires reverential listening in prayerful silence; "my experience" is the content and not discussable or debatable
